Hello students,

Welcome to the last part of your projects - The Academic Poster!

You did amazing job and now it's the time for exposure-show your projects to your family, friends, teachers and the public too.

The Why of Academic Posters- At professional conferences and in university classes and competitions the academic poster allows the viewer to take in and appreciate the research questions, the process and what you achieved in a visually appealing and textually concise manner. In many places, academic posters have replaced the need for PPT presentations. Viewers can grasp the importance of your project even if you are not there to present it.

Rules for the Poster:

1. Size of the Poster: 70*100 / 100*70. Please leave 5 centimeters all around for borders.
2. **Fonts:** Don't use too many fonts. Choose the font intentionally. Choose fonts that are easy to read.
   Size of the font: Headlines/Titles: Arial 26   Body: Calibri 22
3. **The symbol** of your high school must be at the left corner of the poster, and the EcoPeace symbol will be at the right corner.
4. **First Headlines and details:** Put the name of the project at the top of the poster and under it your team names and under it the course name, date, teacher name and your high school.

Guidelines

1. Watch the videos about how to create the poster. On this section of the website there are links to tutorials about how to produce an academic poster. Additionally, there are tips and links to different website for icons, fonts and images for free.
2. Draw a sketch of the parts of the poster. Be creative and write as little text as possible to convey your big ideas. Explain your ideas through images, diagrams and headlines with bullets. Consider using a QR Code to make the poster interactive.
3. Begin to build the poster using Publisher, PowerPoint or Word
4. Test the poster out on your friends/peers
5. Send the poster to you teacher by the date assigned.

Good Luck and Enjoy! ☺
